

Case Packing Step-By-Step

When sending a case to Ragle, please follow the below steps when packing your case:

- Place one foam insert on bottom of box.
- Separate models, and secure impressions and bites in the included plastic safety bag for infection control.
- Place small items in the included small items plastic safety bag.
- Add your completed Ragle Rx– please check all required boxes on Rx to ensure your specifications are met. Don't have a Ragle Rx? Case specific Rx's can be downloaded at www.ragledental.com/send-a-case.
- Place additional foam insert on top of contents.
- Seal box thoroughly for safe shipping.
- If using a Ragle Shipping Box, simply pull the adhesive strips found on the upper flap of the box and press firmly to close.
- To request a UPS shipping label and pick-up, visit www.ragledental.com/send-a-case and select the "Generate UPS Label" button for further instruction.
- Attach the provided UPS shipping label to the exterior of the box.

When receiving a case from Ragle:

- Simply pull the tear away strip from the top of the box. You will find your completed case securely placed between the two pieces of foam.
- Save the box and foam inserts to reuse as instructed above when sending your next case to Ragle.
